

## Rhosnesni High School Year 11 History Trip To Germany

By Connor Casey

I would like to thank the Wales Council for Deaf People and the Cambrian Trust for making it possible for me to visit Germany. It was a valuable experience and something that I will never forget about. It will also help me with my history GCSE exams.

In Nuremburg we went to the town, which lead to a hill which is where we had a nice view of the town. We came to this sort of a statue which had a metal fence around, it also had a lucky ring on the fence. If you twist it you get good luck (I don't believe in luck)

As you see on the left photo this is where we had a nice view of Nuremburg Town, unfortunately for me I don't like heights so I tried to show some courage to stop this fear of heights so I can stand there to see Nuremburg town.

This photo is taken in a very nice restaurant. As you see I'm next to Ethan, he's on the right.

Some of the places I went to are shown below:

This is a Dachau Concentration Camp when I walked into Dachau Concentration Camp it had a massive area with the fences around the Dachau Concentration Camp.

This is a Nuremberg Trial Court, it was very interesting to see the court and empathise how all the American soldiers stand around the court would feel, watching

them.

This is Berlin Gate, I was under the Berlin Gate and it was enormous like it was a 100 feet tall. It had a very nice architecture.

We also went to Colditz Castle.
